

**Machine perfusion of the liver: where are we going?**

Monday 31 May 18:00 (CEST)

**PROGRAMME**

Time	Session	Speakers
18:00 - 18:03	Session introduction	Moderators
18:03 - 18:15	Hypothermic perfusion of the liver: mechanisms, effects, and new frontiers	James V. Guarrera
18:15 - 18:22	Normothermic perfusion of the liver: recovery from damage and delivery of therapy	Peter Friend
18:22 - 18:34	Markers to predict liver viability during machine perfusion	Andrea Schlegel
18:34 - 18:46	Prolonged perfusion: how far we will go?	Philipp Dutkowski
18:46 - 18:58	Current trends in machine perfusion in Europe	Paolo Muiesan
18:58 - 19:20	Evidence based position papers on machine perfusion	Davide Ghinolfi
19:20 - 19:30	Q&A	Panellists and Audience
