

ESOT CONGRESS 2023 – ABSTRACT TRACKS & CATEGORIES

TRACK	CATEGORY
<i>Basic Science Immunology</i>	<i>B cells, antibodies, chronic rejection</i>
	<i>Biomarkers, immuno-monitoring</i>
	<i>Exosomes/EVs</i>
	<i>Gender issues in transplantation</i>
	<i>Immune regulation/tolerance</i>
	<i>Immunosuppression (experimental/preclinical)</i>
	<i>Innate immunity</i>
	<i>Mechanisms of allograft rejection</i>
	<i>T cell immunity</i>
<i>Basic Science Organ Regeneration & Tissue Engineering</i>	<i>3D Bioprinting: Methods and applications</i>
	<i>Biofabrication and bioreactors</i>
	<i>Biomaterials, matrices and scaffolds</i>
	<i>Cell sources: Stem cells, xenogenic</i>
	<i>Exosomes/EVs</i>
	<i>Gene editing/Gene therapies</i>
	<i>In vitro and In vivo tissue engineering</i>
	<i>Non-invasive imaging and analysis of engineered tissues</i>
	<i>Organs-on-chips</i>
<i>Cell Therapies</i>	<i>Adult stem cells</i>
	<i>Alternative cellular models (Organoids)</i>
	<i>Bone marrow, hematopoietic</i>
	<i>Cardiac cells</i>
	<i>Cartilage and bone</i>
	<i>Cell banking and preservation</i>
	<i>Embryonic stem cells</i>
	<i>Islet cells</i>
	<i>Liver cells</i>
	<i>Muscle and neural cells</i>
<i>Composite Tissue</i>	<i>Composite tissue: All topics</i>
<i>COVID-19</i>	<i>COVID treatments</i>
	<i>Vaccination</i>
	<i>Other COVID-related issues</i>
<i>Ethics, Law and Psychosocial</i>	<i>Access and equity</i>
	<i>Ethics and psychosocial</i>

	<i>Law and economics</i>
	<i>Public policy</i>
<i>Health Allied Topics</i>	<i>Pre and post transplant rehabilitation</i>
	<i>Other HAP topics</i>
<i>Heart</i>	<i>Heart: All topics</i>
<i>Intestine</i>	<i>Intestine: All topics</i>
<i>Kidney</i>	<i>Acute cellular rejection</i>
	<i>Ageing and kidney transplantation</i>
	<i>Allocation</i>
	<i>Antibody mediated rejection</i>
	<i>Cardiovascular and metabolic complications</i>
	<i>Chronic allograft injury</i>
	<i>Deceased Donor Issues (DCD, ECD/SCD)</i>
	<i>Failing transplant management</i>
	<i>Health equity and access</i>
	<i>Immunopathology</i>
	<i>Immunosuppression</i>
	<i>Incompatible transplantation</i>
	<i>Infections</i>
	<i>Kidney complications</i>
	<i>Living donor kidney transplantations</i>
	<i>Malignancies</i>
	<i>Organ preservation and ischemia reperfusion</i>
	<i>Polyoma</i>
	<i>Pre-transplant management</i>
	<i>Recipient selection</i>
	<i>Recurrent diseases</i>
<i>Liver</i>	<i>Anaesthesia, critical care medicine, acute liver failure</i>
	<i>Donation after circulatory death liver transplant</i>
	<i>Donor selection criteria, patient selection, organ allocation</i>
	<i>Health equity and access</i>
	<i>Immunosuppression and tolerance induction</i>
	<i>Infections</i>
	<i>Living donor liver transplantation</i>
	<i>Organ preservation and ischemia reperfusion</i>
	<i>Technical aspects of liver transplantation</i>
	<i>Transplant oncology</i>
	<i>Transplantation outcomes and complications</i>
<i>Lung</i>	<i>Lung: All topics</i>
<i>Organ Donation</i>	<i>DBD: Donor after brain death</i>

	<i>DCD: Donor after cardiocirculatory death</i>
	<i>Deceased organ donation (both DBD + DCD)</i>
	<i>Donor derived infection</i>
	<i>Education</i>
	<i>Ethics and regulations</i>
	<i>Living donation</i>
	<i>Organ allocation</i>
	<i>Organ preservation and ischemia reperfusion</i>
	<i>Paediatric donation</i>
<i>Paediatric</i>	<i>Kidney</i>
	<i>Liver</i>
	<i>Transition from paediatric to adults</i>
	<i>Paediatric: Other topics</i>
<i>Pancreas/islet</i>	<i>Islets: All topics</i>
	<i>Pancreas: All topics</i>
<i>Patients' self-management</i>	<i>Patients' self-management</i>
<i>Person-centred care</i>	<i>Person-centred care</i>
<i>Surgical Techniques</i>	<i>Kidney</i>
	<i>Liver</i>
	<i>Robot assisted, laparoscopic, non-invasive</i>
	<i>Other organs</i>
<i>Transplant nursing</i>	<i>Gender issues in transplantation</i>
	<i>Transplant nursing</i>
<i>Xenotransplantation</i>	<i>Basic science topics</i>
	<i>Clinical</i>
	<i>Ethical considerations</i>
<i>Other</i>	<i>AI and Big Data in transplantation</i>
	<i>Artificial organs</i>
	<i>Digital health and technology</i>
	<i>Gender issues in transplantation</i>
